

## Incident Status Summary (ICS-209)

1: Date <b>06/24/2011</b>	2: Time <b>2000</b>	3: Initial   Update   Final   <b>XX</b>	4: Incident Number <b>NC-NCS-11-071-048</b>	5: Incident Name <b>Juniper Road</b>		
6: Incident Kind <b>Wildfire (Full Suppression/Perimeter Control)</b>		7: Start Date Time <b>06/19/2011 1533</b>	8: Cause <b>Lightning</b>	9: Incident Commander <b>Reid Hildreth</b>	10: Incident Command Organization <b>Type 2 Team</b>	11: State-Unit <b>NC-NCS</b>
12: County <b>Pender</b>	13: Latitude and Longitude Lat: <b>34° 32' 40"</b> Long: <b>77° 40' 23"</b> Ownership: <b>NC-NCS</b>		14: Short Location Description (in reference to nearest town):			
15: Size/Area Involved <b>21,336 ACRES</b>	16: % Contained or MMA <b>15 Percent</b>	17: Expected Containment Date: <b>08/01/2011</b>	18: Line to Build	19: Estimated Costs to Date <b>\$549,396</b>	20: Declared Controlled Date: Time:	
21: Injuries this Reporting Period: <b>0</b>	22: Injuries to Date: <b>0</b>	23: Fatalities <b>0</b>	24: Structure Information			
			Type of Structure	# Threatened	# Damaged	# Destroyed
25: Threat to Human Life/Safety: Evacuation(s) in progress ---- No evacuation(s) imminent -- Potential future threat ----- <b>XX</b> No likely threat -----			Residence	<b>2,100</b>		
			Commercial Property			
			Outbuilding/Other			
26: Projected incident movement/spread 12, 24, 48, and 72 hour time frames: 12 hours: <b>Based on predicted weather, spread should be to the N / NE</b> 24 hours: <b>Should continue to spread to the N / NE</b> 48 hours: <b>Continue to spread to the N / NE with backing to the south</b> 72 hours:						
27: Values at Risk: include communities, critical infrastructure, natural and cultural resources in 12, 24, 48 and 72 hour time frames: 12 hours: <b>Residences along Hwy 50 in Onslow County &amp; Holly Shelter Wildlife Habita</b> 24 hours: <b>Camp LeJeune Marine Corps Base target areas and ranges</b> 48 hours: <b>Residences along US Hwy 17 in Pender County</b> 72 hours:						
28: Critical Resource Needs (amount, type, kind and number of operational periods () in priority order in 12, 24, 48, and 72 hour time frames): 12 hours: <b>Heavy Equipment Mechanic</b> 24 hours: 48 hours: 72 hours:						
29: Major problems and concerns (control problems, social/political/economic concerns or impacts, etc.) Relate critical resources needs identified above to the Incident Action Plan. <b>Direct attack has been unsuccessful due to severe drought conditions and soils with high organic contents. Few natural / man-made breaks to use as control lines. Heavy smoke has hindered visibility on recon flights and has mixed with other fires, including Pains Bay, impairing the air quality of areas from Raleigh to the coast.</b>						
30: Observed Weather for Current Operational Period Peak Gusts (mph): <b>9</b> Max. Temperature: <b>91</b> Wind Direction: <b>W</b> Min.			31: Fuels/Materials Involved: <b>4 Chaparral (6 Feet) Pocosin fuels</b>			

Relative Humidity: **56**

32: Today's observed fire behavior (leave blank for non-fire events):  
**Sustained burning along uncontained fireline and smoldering of organic soils within the fire interior.**

33: Significant events today (closures, evacuations, significant progress made, etc.):  
**Pre-suppression lines continue to be installed on all divisions. Alternative man-made breaks are being scouted to assess possible use as firebreaks for future burnout operations on the northeast end of the fire.**

34: Forecasted Weather for next Operational Period Wind Speed (mph): <b>7</b> Temperature: <b>92</b> Wind Direction: <b>W-SW</b> Relative Humidity: <b>40</b>	35: Estimated Control Date and Time:	36: Projected Final Size: <b>unk</b>	37: Estimated Final Cost:
---	--------------------------------------	---	---------------------------

38: Actions planned for next operational period:  
**Continue to install pre-suppression lines along all divisions in anticipation of on-going burnout operations.**

39: For fire incidents, describe resistance to control in terms of:

1. Growth Potential - **High**
2. Difficulty of Terrain - **High**

40: Given the current constraints, when will the chosen management strategy succeed?  
**Unknown.**

41: Projected demobilization start date:

42: Remarks:  
**The fire received about 0.5 inches of precipitation between 1800-2400 hours yesterday, slowing the progression overnight. However, the rain event did little to overcome prolonged drought conditions.**

**43: Committed Resources (Supplemental Committed Resources follow the first block)**

Agency	CRW1		CRW2		HEL1	HEL2	HEL3	ENGS		DOZR		WTDR	OVHD	Camp Crews	Total Personnel
